

# CURRICULUM VITEA

## Overview of the exhibitions and Assignments of Marianne Houtkamp

Sculptor of people in bronze

By creating a perfect, respectful portrait, Marianne's sculptures turn any person from all over the world into an individual star.

In her work Marianne mirrors the human heart.

By a particular facial expression or posture she

captures the positive in a person's character. And she is fascinated by everyday life in foreign cultures.

Marianne is always capable of depicting the essence of a sculpture in its inimitable, moving and poignant way. The result of her great expressiveness is clear and unique. Yet each sculpture leaves room for the viewer's own interpretation. This particular combination makes her "bronze" very popular.

In the following pages you find an overview of the following item:

- Personal Assignments
- Long term exhibitions
- Short term exhibitions
